

## Our Cyprus Themed Wedding Package

*You have seen the Big Fat Greek Wedding. This is our take on the same theme. What more could you wish for come to Cyprus enjoy your wedding in the old traditional way.*

We begin with our Groom and maybe the best man we will have organised a traditional Cyprus wet shave and hot towel treatment. One of our co-ordinators will collect them from their accommodation and take them to the barber.

**The last bachelor's shave**

Ready for them to arrive back at the hotel and put on their suits.

The photographer will be on hand to take the pictures of both Bride and Groom getting ready.

Once ready...we are off.

Let us start with your wedding in any venue you like. There are many options. Speak to us about advice of the many venues available.

A traditional Cypriot house, or a beach wedding, a garden wedding, or a hotel wedding... we can arrange any of these.

We can organise transport for your guests to go to your chosen venue if required.

Now let us step back in time...

Let us start by transporting your guests back in time... We have the traditional "Chicken Bus" or sometimes called the "Old Village Bus" see the last two pictures below. We can use this to collect your guests from the wedding venue or their accommodation to take them to our traditional Cyprus village tavern. Along with a vintage car for the bride and groom. Alternatively, we can do the open top bus in red or cream. We feel if you are going down the Cypriot wedding theme, then it would be good to marry in the traditional house and use the Village bus to collect everyone and ferry them around. The alternative option would be a beach wedding or the garden wedding? Maybe then we could split the two venues by using the open top bus a more modern approach to bring them from their accommodation to your chosen venue. Then we bring the Cypriot theme into play after the wedding ceremony is finished. The surprise on their faces is fabulous when the open top bus disappears and is replaced by the village bus keeping the theme of all that will follow.

We are almost at the venue, it is time to escort all guests and the bride and groom off the coach. Explaining that it was traditional in Cyprus in years gone by for the Guests and the Bride and Groom to walk the last few yards to the reception venue.

Not only that, it was traditional for the Bride & Groom to arrive on a donkey.

With all the guests leading the way for our Bride & Groom.

The music will start, there will be so much joy and happiness and everyone will be waving and wanting to see the fabulous couple on their donkey and their guests walking to the restaurant, it is not too far, so do not worry about getting too hot! (*less than 5 minutes*)

The Bouzouki player and Violinist will be walking ahead to herald your arrival. Dressed in traditional dress of years gone by.

As we enter the taverna to much applause and frivolity, we will wave goodbye to our donkeys.

We will have a fabulous Cyprus Meze arranged and wine on the tables ready to thrill each guest as their taste buds and tantalised.

The setup of the taverna can be as you wish, typical with just the chairs and tables as it is seen most nights. Or we can decorate the chairs using simple flowers and bows, use our white table linen and flower arrangements along with our beautiful wedding arch, and cake table set up in a corner of the restaurant to take those all-important photos of the cake cutting. Set alongside the fabulous 4' high Mr & Mrs Lights!

During this time, our DJ will be playing background music.

The Cyprus dance troupe has arrived ready to entertain your guests and you. Once they have done their traditional dances it is time to get the bride and groom up for their first dance **with a difference**.

Make sure the guests bring their money with them, as this is the time to pin the money on the bride and groom. Again, this was traditionally done like this many years ago.

Making the way clear now for the guests to have some fun, with Cyprus Plate smashing tradition. Not really done any longer as could be deemed a little dangerous throwing plates around.

*Consequently, a disclaimer must be signed.*

*Greek tradition has it that this practice started to show the invited guests a display of wealth, by showing that they no longer needed the plates. They were also proving that friendship is everything. Clearly, there is no better way of proving that, than dining with friends in a traditional way over Greek food.*

We will be leaving you alone now to dance the night away. You are sure to hear the next day all your guests saying "Wow that was different! The best wedding, I have ever been to.!"

What is included in our package: -

**The Cyprus theme package: €6350.**
